Bulky Waste Collection Seal

Bulky Waste collection requires an application and advance reservation.

1 household may dispose of up to 4 items at once time. Collection days differ depending on where you live. Check the Waste Collection Calendar for details.

From Reservation to Collection

- ① Check the size and weight of your waste items.

Size: up to 2 m x 1.2 m x 1 m

Weight: up to 50 kg (can be lifted by 2 adults)

*See p. 39 for a list of service providers that can dispose of items over the size and weight limits.

*Futons, carpets, and other such items may be disposed of with a Burnable Waste Collection Seal if, when folded, they are 1 m or less in any direction, with the height/width/depth totaling up to 2 m, weighing up to 10 kg.

*Small household appliances may be disposed of with a Shredded Waste Collection Seal if they are 1 m or less in any direction, with the height/width/depth totaling up to 2 m, weighing up to 20 kg.

- ② Make a Reservation.

- Call the Environmental Facilities Division at **0853-21-6988**.
- Reservations can be made until 12 PM on the day before collection. If this day falls on a weekend or public holiday, reservations can be made until the last day that City Hall is open prior to collection day.

- ③ Buy a Bulky Waste Collection Seal (1,047 yen each, 1 needed per item) at a supermarket, home center store, or drug store within the city. Write your name on the seal and affix it directly to the waste item(s).
- ④ Place the waste item(s) in the location decided at the time of reservation (e.g., in front of your home, in a waste collection area) by 8:30 AM on collection day. The item(s) will be collected by the evening of that day. There is no need to be there when the waste is collected.

*Waste collectors will not enter your home.

*You cannot specify a time for collection.

*Only the items you applied for will be collected. If you want to make any changes to your reservation, please be sure to call.

Special Cases: When you can dispose of more than 1 item with just 1 Collection Seal

In principle, each waste item needs its own Bulky Waste Collection Seal, but the items listed below are special cases in which 1 Bulky Waste Collection Seal can be used for multiple items.

Items	Number allowed	Notes
Drying rods or other rod-shaped items	5 (of the same type)	Each rod must be 2 m or less in length. Includes drying rods, curtain rails, fishing poles, etc. Tie together with a rope.
Clothes drying racks	1 set	Two stands make one set. If they weigh over 50 kg together, 1 Collection Seal will be necessary for each.
Galvanized sheet iron	5 sheets	Must not exceed size or weight limits for Bulky Waste. Tin and plastic galvanized sheets may be disposed the same way.
Golf clubs (incl. bag)	1 set	Up to a full set.
Skis (incl. poles)	1 set	2 skis and 2 poles together make 1 set.
Tatami mats	2 mats	1.8 m x 0.9 m per mat. If the 2 mats weigh over 50 kg together, 1 Collection Seal will be necessary for each.
Sliding paper doors, screen doors	2 mats	

Bulky Waste Items Not Collected by the City

Be advised that the following items will not be collected as Bulky Waste.

- ✗ Items over the size or weight limit for Bulky Waste
- ✗ Items that cannot be removed from your house
- ✗ Sofa beds

Contact a specialty service (listed on p. 39) for disposal.

- ✗ Spring mattresses which are in one piece

Waste processing facilities cannot process spring mattresses as-is. (Contact a specialty service listed on p. 39)

If you can remove the springs, you may dispose of them as Bulky Waste, and the remaining fabric/padding as Burnable Waste.

- ✗ Items that fall under the Home Appliance Recycling Law.

See p. 24 for how to dispose of these items.

- ✗ Computer

See p. 25 for how to dispose of these items.

» Aid Systems for Waste Disposal

Izumo City offers aid to cover part of the costs associated with installing new waste collection areas, as well as updating or repairing these areas. If you would like to use this aid system, please be sure to consult with the Environmental Facilities Division before paying any costs.

Conditions for Aid

The following 3 conditions must be met to be considered eligible for aid.

- ① Waste collection area is in use by 5 or more households
- ② Waste collection area is maintained and managed by the residents of the area
- ③ Costs are 10,000 yen or more

Aid Amounts

Up to half of the costs of eligible areas. Amount will be rounded down to the nearest 1,000 yen. For example, if costs are 85,000 yen, 42,500 is half, but only 42,000 will be covered.

- ① To install a new or updated waste collection area for use by 5 - 19 households Upper limit 50,000 yen
- ② To install a new or updated waste collection area for use by 20 or more households Upper limit 100,000 yen
- ③ To repair a waste collection area Upper limit 20,000 yen

For more information, call the Environmental Facilities Division at **0853-21-6988**.
